**2. Procedure**

**2.1. Procedure**

Title: Construction of the wastewater treatment plant, wastewater collection system and implementation of water supply priority measures in the Municipality of Kolašin

Description: This contract includes the following elements: 1. Sewerage network: Construction of sewerage network in the approximate length of 9.2 km. 2. Water supply priority measures: Water supply priority measures include services, supplies and construction works to be designed, supplied, installed and constructed by the Contractor. 3. Wastewater Treatment Plant Design and Construction of WWTP in Bakovići settlement - Conventional Activated Sludge Process and aerobic sludge stabilization. Design and construction of the WWTP shall include two phases: › Phase I – 4000 PE (to be constructed) › Phase II – additional 2000 PE (to be considered in design) Works will be implemented according to FIDIC Yellow Book (1999 ed), in compliance with requirements of the Montenegrin legislation and relevant EU and EIB requirements. The Contractor must particularly consider licensing and permits requirements in the Law on Spatial Planning and Construction of Structures in Montenegro in force.

Procedure identifier: 01053f21-b48d-42aa-9f2d-d65ab528b44f

Previous notice: 63716-2025

Internal identifier: EIB-GtP/ENR/10 711\_Kolasin\_Works

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: The indicative scope of works covers the following elements:

1. Sewerage network: Construction of sewerage network in the approximate length of 9.2 km which will serve to 3000 inhabitants in the following settlements: Kolašin city centre, Braće Vujisić (Dulovina), Breza and partly Smailagića Polje and Gornji Pažanj. 2. Water supply priority measures: Water supply priority measures include services, supplies and construction works to be designed, supplied, installed and constructed by the Contractor. - Preparatory services (operational GIS, HID based hydraulic model, leakage detection for 30 km of network and detailed design of new elements including SCADA) - Supply, installation and commissioning of bulk flowmeters, and water meters (400), establishment of DMAs and SCADA - Works for upgrade of the water distribution system hydraulic configuration. 3. Wastewater Treatment Plant Design and Construction of WWTP in Bakovići settlement - Conventional Activated Sludge Process and aerobic sludge stabilization. Design and

construction of the WWTP shall include two phases: Phase I - 4000 PE (to be constructed): Wastewater flowrate (including infiltration) = 765 m<sup>3</sup>/d (9 l/s); Peak dry weather flow = 57 m<sup>3</sup>/h (16 l/s); Peak wet weather flow to =109 m<sup>3</sup>/h. Phase II - additional 2000 PE (to be considered in design): Wastewater flowrate (including infiltration)= 1045 m<sup>3</sup>/d (12 l/s); Peak dry weather flow = 77 m<sup>3</sup>/h (21 l/s); Peak wet weather flow = 150 m<sup>3</sup>/h The proposed process for WWTP includes: Influent pipe and by-pass line, inlet chamber, Coarse screens, Fine screens, Aerated grit chamber, Distribution chamber, Primary sedimentation, activated sludge and secondary sedimentation (biological) treatment, Effluent control and measurement chamber, Discharge line to the Tara River, Sludge pumping station, Sludge distribution chamber, Sludge thickener, Sludge reed beds, Drainage pumping station, Building for guard, laboratory, blowers, warehouse, Odour control, Plant infrastructure, fences, access and internal roads with greenery, Utility connections: Pressure effluent line (DN280, 1870 m); Access road (2100 m); Power supply; Water supply (DN100, 1195 m); Telecom. Total expected duration of the contract is 48 months, including 12 months of Defects Notification Period. The Municipality of Kolašin intends to conduct open international procedure for selection of contractor. The selection procedure will be conducted through the procedure as specified in the practical guide for European Union external action (PRAG) and EIB Guide to Procurement (2024). In case of any conflict the EIB Guide to Procurement <https://www.eib.org/en/publications/20240132-guide-to-procurement-for-projects-financed-by-the-eib> will apply.

#### **2.1.1. Purpose**

Main nature of the contract: Works

Main classification (cpv): 45240000 Construction work for water projects

#### **2.1.2. Place of performance**

Town: Kolasin

Country subdivision (NUTS): Црна Гора (ME000)

Country: Montenegro

#### **2.1.4. General information**

Additional information: a) Contract financing: WBIF Grants (WB-IG07-MNE-ENV-01) and Finance Contract „Montenegro Water and Sanitation” between Montenegro and the European Investment Bank. b) Clarifications on the contract notice may be sought from the contracting authority at the following email addresses: [bulatovicdamjana@gmail.com](mailto:bulatovicdamjana@gmail.com) and [nikola.vukmirovic@procon.me](mailto:nikola.vukmirovic@procon.me), at the latest 21 days before the deadline for submission of tenders.

Questions must be sent to the both e-mails. The Contracting Authority has no obligation to provide additional information after this date. The Contracting Authority must reply to all tenderers' questions at least 14 days before the deadline for receipt of tenders. c) All costs related to participation in this procurement procedure shall be borne by tenderers. d) Site inspection: The tenderer is obliged to visit and inspect the site of the works and its surroundings for the purpose of assessing, at its own responsibility, expense and risk, the factors necessary for preparing its tender and signing the contract for the works. Details of the site visit and a clarification meeting are included in tender documents. e) Submission of tenders All tenders must be received by the Contracting Authority before the time limit for submission of tenders. The tender must be sent to the following address: Municipality of Kolašin Buda Tomovića bb, 81210 Kolašin, Montenegro Working Hours from 7.00 - 15.00.

Legal basis:

Other

Project is being co-financed by the European Investment Bank and it is subject to the EIB Guide to Procurement
